My India, My Pride

"I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him."

-Abraham Lincoln

Republic Day is celebrated every year with much enthusiasm all over the country. We celebrate Republic Day every year in India on January 26, since 1950 to honour the date in which the Constitution of India came into effect. The whole nation stands proud on each January 26th and remember the soldiers who sacrificed their life for our country. The parade at India Gate is watched and loved by all. The students classes I – III celebrated the Republic Day with zeal and ardour on January 25, 2021. The day began with the assembly video beautifully put together for the children. The children started the day by singing the national anthem which was followed by listening to a melodious song and enjoying a foot tapping dance. The children were inspired by the words of our very own Principal ma'am and Director ma'am, and participated actively in the Republic Day celebrations. The students enjoyed wearing the Nehru cap as part of the celebration and learnt about different facts related to our constitution. The students of class II spoke about fundamental rights and duties, orated patriotic poems, presented amazing facts on the constitution and enlightened everyone with patriotic thoughts on the occasion. The children enjoyed learning about the constitution and understood the importance of the Republic Day.

Fit Hai Toh Hit Hai

"Physical fitness is not only one of the most important keys to a healthy body, it is the basis of dynamic and creative intellectual activity."

- John F. Kennedy

Annual day is that time of the year when we give students an opportunity to showcase their unique talent, connect with their mentors and show a true spirit of teamwork. We at DPS, GBN believe that such presentations allow the child to bloom, blossom and thrive, giving them the right platform where they work towards becoming a responsible citizen. Students of Class II presented a colourful comedy drama to celebrate fitness as a life mantra on January 9, 2021. The theme of the first ever Online Annual Class Presentation was 'Fit Hai Toh Hit Hai'. The comedy drama showcased how we can keep ourselves fit even during the times of a pandemic. The young performers surprised us with their acting talent. They danced on foot-tapping numbers, practiced Yoga poses and motivated everyone to take their health seriously and work-out in a fun way. The presentation left everyone spellbound and extremely proud of our young Dipsites.

Safety – A Priority

“At the end of the day, the goals are simple: Safety and Security”.
-Jodi Rell

Safety is a state of keeping yourself free from any harm and danger. We can avoid accidents and be safe by being careful in our surroundings. It is important to make children aware of how they can protect themselves from any harm. At DPS,GBN we believe in safety being a priority as all times, thus educate our young ones on all the safety measures to be practiced by them. Keeping all these factors in mind, we organized a special week ‘Safety First’ from January 25 to January 29, 2021 for the students of classes I-III. The power packed week commenced with the children being shown a power point presentation which helped them understand the importance of safety at all times. They then had fun making a badge which they wore with pride. Helping Hands activity was instrumental in educating the children on the concept of first aid and how to maintain it properly. Net Connect was the next activity in which children were guided on how to use technical gadgets and technology in a proper manner to gain maximum advantage while safeguarding themselves. On the last day, students made and decorated a face mask as part of the Superpower in a mask activity followed by a recapitulation of all the safety measures to be maintained during the pandemic. The children enjoyed and enthusiastically participated in the special week. It helped the children to be more aware and equip themselves with the basic safety knowledge of differentiating between safe and unsafe situations.

The Champions

“There are always new, grander challenges to confront, and a true winner will embrace each one.”

- Mia Hamm

Determination, hard work and perseverance are keys to success. Dipsites, ingrained with such virtues have mapped their road to success! Our students made us proud by winning laurels for our school. The students participated in an Online Inter School Competition, Epiphany 2020 organized by Brightland School, Ghaziabad on December 30, 2020. Aradhyo Deb of III B for the event ‘Stony Land’ bagged First position. The other participants Smaya Mishra of I F for the event ‘Food Picasso’, and Saisha Agarwal of II G for the event ‘Word Mosaic’ gave striking performances. The children indeed won our hearts with their exuberance and enthusiasm.

Unleashing Our Imagination

“Creativity is thinking up new things, Innovation is doing new things.”
-Theodore Levitt

Art is the process of creating, exploring, discovering, and experimenting. At DPS, GBN we always aim at engaging children in activities that build up their interest and tap into their real potential. The theme for WE activity for the month of January was Creative Club. During the month, children explored different painting techniques like Fork Art, Salt Painting, Picasso Cubism Art and Blow Painting. Children used the power of their imagination and created beautiful masterpieces. Children learnt how to make a Panda using fork and oil pastels and were apprised about different amazing facts about it. Children had fun experimenting with colours and salt and create colourful drawings which truly captivated their interest. In another activity, they learnt Picasso Cubism art and were astonished by the end result. All the activities helped them to enhance their creativity, imagination and aesthetics. Yes, indeed, the right mix of creativity along with curriculum helps students to be innovative and also encourages them to learn new things. Creativity gives them the freedom to explore the surroundings and learn new things from it. There is nothing more satisfying and fulfilling for children than to be able to express themselves openly. Children happily shared their learning experiences and enthusiastically participated in the Creative Club classes.
