### Prep

1. Draw as I Say Activity was held on January 13, 2021.
2. Tri- Colour Sandwich Making Activity was organised on January 20, 2021.

## Dancing Stars

*Dancers don't need wings to fly...*

Understanding the importance of extra-curricular activities that ensures the wholesome development of children, Daycare and Nursery conducted a dance competition 'Dancing Stars' for our tiny tots on January 20, 2021. It was a treat to watch our upcoming stars shake a leg to the folk songs that showed how vast and colourful our Indian culture is. The children actively participated wearing vibrant coloured attires. The performances and efforts put by children and parents were unmatched and it left everyone spellbound.

## Republic Day

*"Be the change you want to see in this world and feel proud to be an Indian."*

To celebrate the spirit of unity, Daycare and Nursery celebrated 72nd Republic Day virtually on January 25, 2021. A special dance and craft activity was conducted for our children through which they showed love and respect for their country. The kids brought the celebration alive by merrily singing and dancing to the patriotic songs and fluttered their tricolor crafts with beaming smiles. This national festival indeed was an enlightening experience for all of us.

## Ladoo Making Activity

Learning becomes long lasting when it is done through hands on activities. Keeping this thought in mind, Nursery organized 'Ladoo Making' activity on January 13, 2021 to provide experiential learning of vyanjan ल .The children looked forward to make their very own ladoos with their tiny hands. They followed the instructions with excitement as they rolled out ladoos from mixture of churned biscuits and milkmaid and dipped them in chocolate syrup. They added a personal touch to it by decorating them with desiccated almonds and coconut. It was indeed a very engaging and fun activity by our little chefs.

## Draw as I Say

Paying attention, following instructions and listening are important skills for the kids to practice in everyday life. The world would be in complete chaos if no one ever followed instructions. To inculcate these crucial skills in our little ones, grade Prep organized a fun-filled drawing activity on January 13, 2021. The children were thrilled to know that they have to draw as per the instructions given by their teacher. They tried their level best to follow every instruction very delicately and sketched a clown. Every child's art work was a little different from others and it revealed that how rigorously they listened to the teacher and followed her instructions. Along with drawing they also filled colours as per the specification given to them. It came out to be a valuable session as the children learnt many skills as well as had lot of fun.

## Tri-colour Sandwich Making

*“Freedom in mind, Faith in our heart, Memories in our souls.”*

On the occasion of 72nd Republic Day, DPS, GBN decided to salute the Nation with utter enthusiasm and patriotism. The celebration began with the ‘Tri-colour Sandwich Making’ activity organized for the kids of grade Prep on January 20, 2021. The children were zealous and all set with the ingredients to make a delectable Tri-colour Sandwich. They were amused to spread the butter with green sauce on the first bread slice and topped it with cucumbers, cheese on the second bread slice and red sauce with grated carrot on the third bread slice. Their faces lit up with joy as they saw the 3 colours - saffron, white and green in their sandwich. It looked very tempting, full of flavours and healthy too. The kids as well as their parents relished it with joy. The celebration came to the end when the teachers danced with their little munchkins on patriotic songs. The smell of patriotism was in the air and it was a memorable experience for all of us.
