Back in Action: Students Re-join the Classroom After the Winter Break

The winter break has ended, and the school halls are once again buzzing with the excitement of new possibilities. After a well-deserved holiday, students are back to the School, ready to embrace a new semester filled with challenges, opportunities, and fresh beginnings. With renewed energy and a clear vision for the year ahead, it's time to set new goals, rekindle friendships, and dive into the learning journey. The start of a new year is more than just a return to routine—it's the perfect chance to start anew, push boundaries, and make this time the best one yet. Welcome back, Students—let the adventures of learning continue!

Patriotism is in the Air: A Memorable Republic Day Celebration at DPS, GBN

The spirit of patriotism filled the air as the primary students of DPS, GBN came together to celebrate Republic Day in a spectacular display of talent and enthusiasm! Through an inspiring assembly, our young stars of Grade 3 showcased the rich culture and values that make India proud. From energetic performances to heartwarming messages, each student contributed to making this Republic Day celebration truly special. The entire wing joined in the festivities, applauding the creativity and dedication of our young performers. It was a day of unity, pride, and joy, as we all celebrated the strength and diversity of our great nation!

Subject Snapshots

ENGLISH

Speaking activities are a crucial part of learning the English language, and they play a significant role in developing students' communication skills. It helps improve fluency, enhances pronunciation, develops vocabulary and, boosts confidence. Students of Grade 3 enjoyed speaking about their favorite Cartoon character. This activity was engaging and interactive, allowing students to share their thoughts and stories. Students of Grade 4 became News Reporters and confidently presented different news items. Students of Grade 5 got an opportunity to ask questions from their favorite famous personalities. The choice of questions left everyone captivated. Speaking activities can help students to develop their critical thinking skills and creativity and by using language in a more imaginative and innovative way, students can develop their ability to express themselves more engagingly.

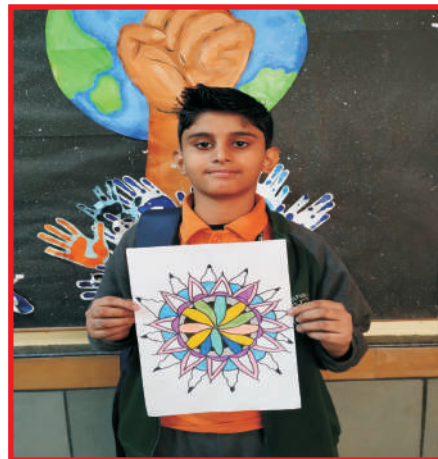

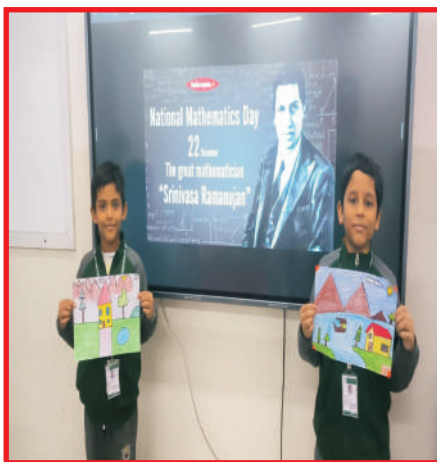

MATHEMATICS

"The universe cannot be read until we learn the language of Mathematics."

– Galileo Galilei

To celebrate National Mathematics Day and ignite a passion for the wonders of Math a captivating Visual Math Showcase was organized for the students. This exciting activity offered our young learners a chance to explore the visual side of Mathematics in a hands-on, creative way. Grade 3 students amazed everyone by crafting stunning landscapes using 2-dimensional shapes, while our talented Grades 4 and 5 scholars designed intricate and vibrant Geometric Rangoli artworks. This immersive experience not only sharpened their mathematical skills but also sparked a deeper love for the subject. A fun-filled day of learning, creativity, and discovery, the Visual Mats Showcase truly brought the magic of Mathematics to life!

EVS

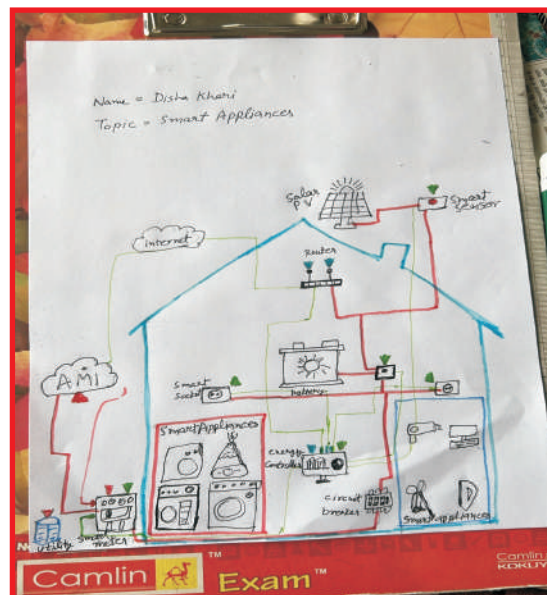

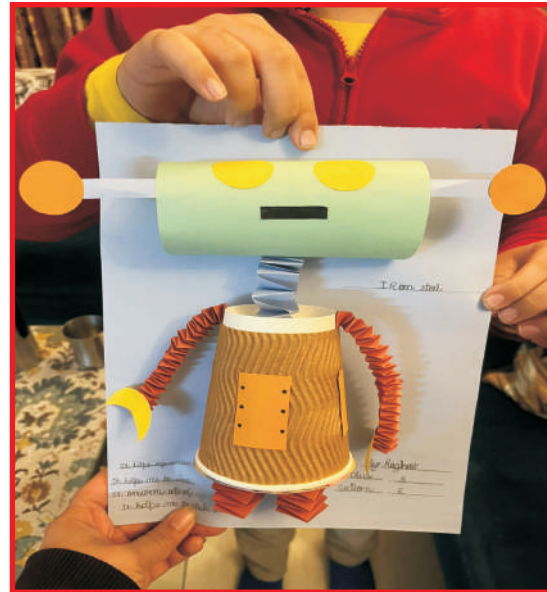

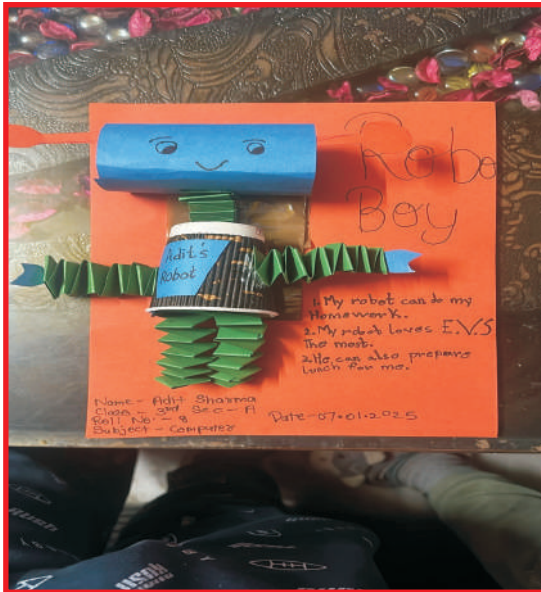

Mapology Activity: Exploring India's States, Capitals, and Regions

At DPS GBN, our Grade 5 students recently embarked on an exciting Mapology activity, where they explored the states, capitals, and geographical regions of India through an engaging puzzle challenge. Students matched 29 states with their respective capitals, honing critical thinking, geographical awareness, and teamwork skills. The activity sparked curiosity about India's regional diversity and the relationships between people, places, and environments. With remarkable enthusiasm and collaboration, students not only enjoyed the hands-on experience but also deepened their understanding of geography. This successful activity continues to inspire a love for learning and exploration in our students.

COMPUTER SCIENCE

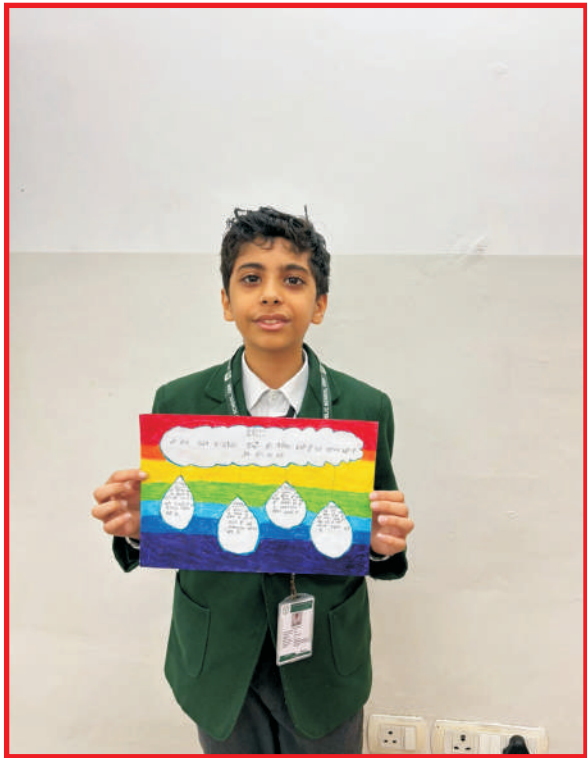

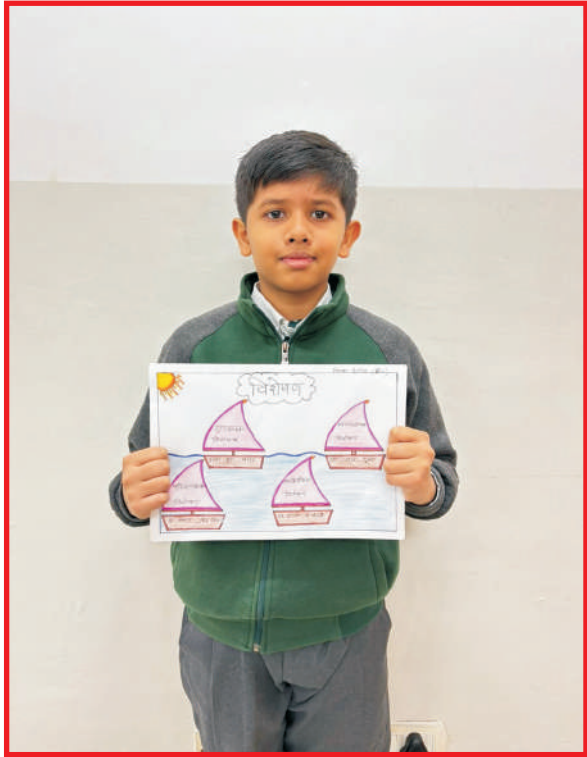

Our students engaged in an enriching program focused on Smart Homes, AI, and IoT, through interactive sessions, group discussions, and hands-on activities, enhancing their understanding of these technologies. To prepare for upcoming assessments, revision classes provided targeted support, clarifying doubts and reinforcing key concepts. Class tests helped assess progress, identify knowledge gaps, and refine teaching strategies. As a result, students showed increased engagement, improved understanding and greater confidence in tackling challenging topics, and identified areas for further improvement, setting them on the path to academic success.

‘विशेषण और क्रियाविशेषण शब्दों को जीवन देते हैं, जिसके उपयोग से वाक्य शक्तिशाली और अर्थपूर्ण बनते हैं।’

विशेषण और क्रियाविशेषण हिंदी व्याकरण के दो महत्वपूर्ण घटक हैं। ये दोनों शब्द हमें वाक्यों में अर्थ और संदर्भ को दर्शाने में मदद करते हैं। हमें विशेषण और क्रियाविशेषण का सही तरीके से उपयोग करना चाहिए ताकि हमारे वाक्य स्पष्ट और अर्थपूर्ण हों। इसी तथ्य को गतिविधि के माध्यम से डी.पी.एस., जी.बी.एन. के कक्षा पाँचवी के विद्यार्थियों ने सचित्र दर्शाया। जिसमें बच्चों ने विशेषण तथा क्रियाविशेषण के प्रयोग, उसकी विशेषता पर अपने विचारों को कक्षा में सचित्र प्रस्तुत किया। इस गतिविधि से बच्चों व्याकरण के उचित प्रयोग, विशेषण और क्रियाविशेषण की महत्ता से अवगत हुए। इस गतिविधि के द्वारा सतत विकास लक्ष्य ४ (गुणवत्तापूर्ण शिक्षा) और हिंदी भाषा को कला के साथ एकीकृत करने का भी प्रयास किया गया।

Safety First: Road Safety Workshop for Young Explorers

An engaging road safety workshop was conducted for primary school students at DPS GBN. The aim was to instill the importance of safe road practices while making learning fun and interactive. The workshop, led by trained professionals, focused on educating students about pedestrian safety, traffic signals, and the crucial role of adults and children in ensuring road safety.

Stars of the Month: Recognizing Outstanding Student

- Mehrab Fatema of Grade III has won a Gold medal, Aavyaan Patnaik and Drishti Singh of Grade IV have won a Gold and a Silver medal respectively in the International Hindi Olympiad.
- Ivaan Bansal of Grade III has won 12th International Rank in SOF NSO Olympiad and 2nd International Rank in SOF IMO Olympiad.
- Vaanya Negi and Yashaswi Singhal have secured the 2nd Position in the Spanish Poem Recitation Competition held at DPS, Saket.

Student Musings: Articles from Our Young Writers

Our Earth

Our Earth is the only planet with life, We don't have another planet that is alike. Plastic, plastic, plastic all around, There are many places where it is thrown! Let's come together and save our Earth Because for our life it has great worth.

AI: A blessing with some downside

AI is transforming the world into a better place to live for human beings. It uses a variety of techniques to enhance the human productivity in all spheres of life. Improved decision making, better healthcare, improved learning, personalized recommendations and better data analysis are some of the advantages of AI. Besides all these upsides, there are some downsides that comes with it. For example, job displacement, ethical concerns, security risks, lack of skills. Every invention always brings related problems with it. Only time will tell what future holds by replacing Natural Intelligence with Artificial Intelligence.

The Books That Inspire Me

Books are my gateway to incredible adventures and life lessons. David Walliams's hilarious stories, like Slime and Bad Dad, always make me laugh while showing that kindness and courage truly matters. Sudha Murty's tales, such as The Gopi Diaries and Grandma Bag of Stories teach me humility, self-belief, and helping others. Roald Dahl's magical worlds in Matilda and Charlie and the Chocolate Factory inspire me to embrace surprises and face challenges with bravery. Enid Blyton's thrilling adventures, like The Famous Five, sparks my imagination and curiosity. These authors inspire me to dream big and explore fearlessly. Lastly, how can I forget Ruskin Bond who has lived half of his life in the mountains. He has written many stories such as Cricket with Crocodile, The Cherry Tree and Grandfather's Private Zoo. He teaches that nothing is impossible and that you should never to give up if you really want to do something.

The Magic of the Lost School

In 1820, a school mysteriously vanished due to magic. Scientists found some torn pages that hinted at a way to bring it back. A curious boy named Rohan studied the pages and discovered a mention of a magical button hidden in the 'Maha Book'. Determined, he taught himself magic through self-study and practice. After much effort, Rohan found the Maha Book, pressed the magical button, and the lost school reappeared. Everyone praised his bravery and intelligence, and the school became a symbol of power, knowledge and perseverance.

Fun on the Field

Kick the ball, run so fast,
Playing sports is such a blast!
Jump, hop, and skip around,
We laugh and play, we're safe and sound.
Teams work together, side by side,
With every pass, we take pride.
The game is over, we had fun,
Tomorrow's game has just begun!
We cheer and clap, we're full of glee,
Playing sports makes us feel free!
With friends by our side, we feel so bright,
Sports make our day feel just right!

Exam Time

Exam Time is round the corner,
When studies become top of the order.
Time and my brain run fast.
Fun and play become lost friends,
Hindi, Math, Science...just has no end!!!
I promise myself to finish all my
preparation during the daytime.
Little me, practicing and reading all that
ma'am has taught, but alas!It's already
night time...
Oh Lord! Please help me...this one last
time.

A BIRTHDAY SURPRISE

It was a snowy morning, and everything outside looked magical, like a scene straight out of Christmas. Our friend Rahul was in a great mood because it was his birthday. He started his day with a bath, had a sandwich for breakfast, and then headed off to the office, completely unaware of the surprise we were planning for him. Sandeep, one of Rahul's close friends, had originally planned a birthday party for him in the park. But with all the snow, it was clear that the plan would not work. I remember walking into the room where Sandeep sat, looking worried. Just then, Arjun arrived and asked, "Did you plan Rahul's birthday party?" Sandeep sighed and said, "I did, but it's cancelled because of the snow." That's when Arjun came up with the idea of hosting the party at Rahul's house instead. Sandeep seemed unsure, so Arjun quickly explained, "Rahul is at the office at present. We can go to his house, decorate it, and invite all his friends. By the time he gets back, everything will be ready." Sandeep finally agreed, and the two of them rushed off to make it happen. They decorated Rahul's house with colourful balloons and streamers, arranged for a cake, and made sure to call all his friends. I joined them later to help with the preparations, and soon, everything was ready. The house looked festive and cheerful, filled with laughter as everyone waited for Rahul to come home. When Rahul finally walked in, we all shouted,

"HAPPY BIRTHDAY, RAHUL!"

He stood there, completely surprised and so happy. Seeing his reaction made all the effort worth it. Rahul told us later that it was the best birthday he had ever had, and honestly, it was just as special for us to be a part of it.

Knock, knock! Don't open the door to strangers!

It was a dark, stormy night. The rain was pelting hard on the windows and Fiery, Rainbow and Paca were cuddled together. Rainbow grumbled because she didn't want to get up from the warm bed to go to the washroom. But she did get up and went. The lights went out and it was pitch dark everywhere. Then there was a knock at the door. Paca hid under the bed, frightened. Fiery looked at her scornfully and opened the door. A hooded figure stood there. There was a flash of lightning and a clap of thunder. The lights came back on and Paca came out from the bed. She looked for Fiery but she was gone! Then there was a whooshing sound and Rainbow came out from the washroom.

Paca told Rainbow everything; they looked at each other in alarm. At that moment, Rainbow's phone rang. She picked it up and a deep voice said, "Put your magical gold coin under the doormat. Then that rude friend of yours will be returned!" Paca put the gold coin under the doormat. A few minutes later their doorbell rang and Rainbow opened the door to Fiery. They all wept with joy. After two days, Paca's gold coin found its way back to her because the Tooth Fairy had promised that it would never be lost.

The Cows And The Lion

Five cows lived in a grassland and ate fresh grass. They were good friends. They were always together. One day they fought and each one started to eat grass in different places. One lion attacked and killed them one by one.

Moral- Unity is strength when we are together - we win and if we are alone -we lose.

Disadvantages of Artificial Intelligence in Education

While there are many advantages of using AI tools in education, there are some disadvantages too, few are as followed:

1. Decrease in face-to-face interaction of teachers and students
2. Lack of Emotional Intelligence, AI cannot teach social skills like empathy and communication skills
3. Data privacy and security
